- Tools & Version Control: Git, GitHub

LANGUAGE

Bangla
English
Hindi

PROFILE

Computer Science and Engineering student at KUET skilled in Flutter, Dart, and full-stack development. Experienced in building mobile and web applications using Firebase, REST APIs, Java, PHP, and MySQL. Passionate about problem-solving and developing real-world software solutions.

EXPERIENCE

- Implemented responsive design principles to enhance user experience across devices.
- Integrated REST APIs to connect front-end applications with backend services, ensuring seamless data flow.

PROJECTS AND CERTIFICATIONS

- **Weather App:** A Flutter app that provides real-time weather updates with a clean and simple UI.
- **Shopping App:** A Flutter-based e-commerce app for browsing products with smooth and responsive design.
- **Todo App:** A task management app built with Flutter to help users organize daily activities efficiently.
- **Family Budget System:** A Java-based application for tracking income and expenses for better financial management.
- **GPA Calculator:** A Java desktop app that calculates and manages students' GPA easily and accurately.
- **SecretBox:** A secure Java desktop chat application for private and encrypted communication.
- **Minicomputer Design:** A Logisim-based CPU design project to understand computer architecture concepts.
- **Portfolio Website:** A personal website showcasing skills, projects, and achievements using HTML, CSS, and JavaScript.
- **Currency Converter:** A Flutter app that converts currencies with a simple and user-friendly interface.
